

# Exciting Careers Events & Opportunities

## **Tuesday 29th October: Year 10 and 11 GCSE Computer Science Students: Launch a career in Computing - Introduction to AI**

**MK:U Innovation Hub** are running an exciting event introducing you to the world of Artificial Intelligence! This in-person workshop is aimed at **Year 10 and 11 GCSE Computer Science Students** looking to develop a career in Artificial Intelligence and Computing . Delivered by MK:U's leading experts in AI this session will introduce the uses of AI in computing.

This is the ideal session for anyone looking to study computer science at University that wants to expand their knowledge and experience what a university level course on AI would entail.

This event is part of the Milton Keynes Artificial Intelligence Festival and is during October half term. It's free to attend, but you must register at the link below:
